

Terrell Independent School District

ACCEPTABLE USE POLICY PARENTAL PERMISSION FORM

The Terrell Independent School District (TISD) student named below is being provided access to and use of the internet and other networked information resources.

We understand that the internet provides access to content which we and TISD could find highly objectionable and offensive and would not want students to view. We understand that the TISD safeguards are a good faith effort to avoid undesirable access, but are not foolproof. We understand that access to these materials can occur even accidentally.

We understand also that if a student knowingly violates the Internet Use Policy of the Terrell I.S.D. that student will be held accountable and will be subject to:

1. Loss of access
2. Additional disciplinary action may be determined at the building level, in accordance with existing practice regarding inappropriate language or behavior and other misconduct, and could include suspension or expulsion depending on the severity of the incident.

In the case that a student either deliberately or accidentally accesses inappropriate information on the web, that student should immediately report it to the supervising adult in the classroom or library.

Therefore, we release TISD (and its employees and representatives) from and accept responsibility for any liability arising from or related to the student's use of the internet and other networked information resources.
